Evon Technologies - Service marketplace app development company

Evon Technologies, founded in 2006 and headquartered in Dehradun, India, is a leading offshore IT services firm and a trusted offline marketplace development company with over 425 skilled professionals. With 18+ years of experience, we specialize in service **marketplace app development**, helping traditional businesses successfully transition from offline models to scalable digital platforms using ready-made code modules and responsive design templates. Whether it's a food ordering app development project or a full-fledged **service marketplace platform**, our solutions are built for rapid deployment, robust architecture, and cost-effective execution.

Our expertise spans **custom web development** and **mobile app development**, product engineering, AI & ML, cloud consulting, DevSecOps, and digital transformation. By leveraging advanced algorithms, scalable frameworks, and a deep understanding of cost-efficient service marketplace app development, we enable businesses to go live in weeks—not months—while delivering high performance and enhanced user experiences.

As a CMMI Level 5, ISO 27001 (2022), and ISO 9001 (2015) certified company, Evon blends technical excellence with operational integrity. From embedded systems and enterprise integration to startup acceleration and digital consulting, we are committed to building future-ready platforms that grow with your business. Whether you're envisioning a next-gen service marketplace or looking to bring your **food delivery idea into a scalable digital product**, Evon Technologies ensures precision, speed, and end-user engagement every step of the way.

Overview -

Evon Technologies is a seasoned technology partner helping businesses digitize and expand their service ecosystems through innovative marketplace solutions.
